Debitum Network

11/October/2017 No (9.3-02)-3-4241

RE: LETTER OF SUPPORT TO DEBITUM NETWORK

The Ministry of Economy of the Republic of Lithuania would like to hereby express interest to support initiatives aimed to address problems of small and medium-sized enterprises which access financing by leveraging blockchain solutions.

Lithuania supports FinTech industry and promotes new FinTech initiatives like Debitum Network. We very much welcome innovative projects like the one Debitum Network is working on, which projects are essential for the sustainable growth of our economy and for Lithuania becoming a FinTech hub.

The lack of credit to small and medium-sized enterprises is a common problem not only in Lithuania but also in most European countries. We believe that the solution and the different approach proposed by Debitum Network might help create more financing opportunities, which are essential for the growth of the economy both in Lithuania and globally.

Minister

Mindaugas Sinkevičius
