

Metamask is functional and simple wallet, that acts like Google Chrome Extension. It allows to interact with many features, without need to install any software.

1. Download and add the Metamask plugin for Chrome on <https://metamask.io/>

The image shows a browser window displaying the Metamask website at <https://metamask.io/>. The website features the Metamask logo (an orange fox head) and the text "Brings Ethereum to your browser". Below this, there are two buttons: "GET CHROME EXTENSION" and "GET BRAVE". A purple circle with the number "1" highlights the "GET CHROME EXTENSION" button. A purple arrow points from this button to the "ADD TO CHROME" button on the Chrome extension page.

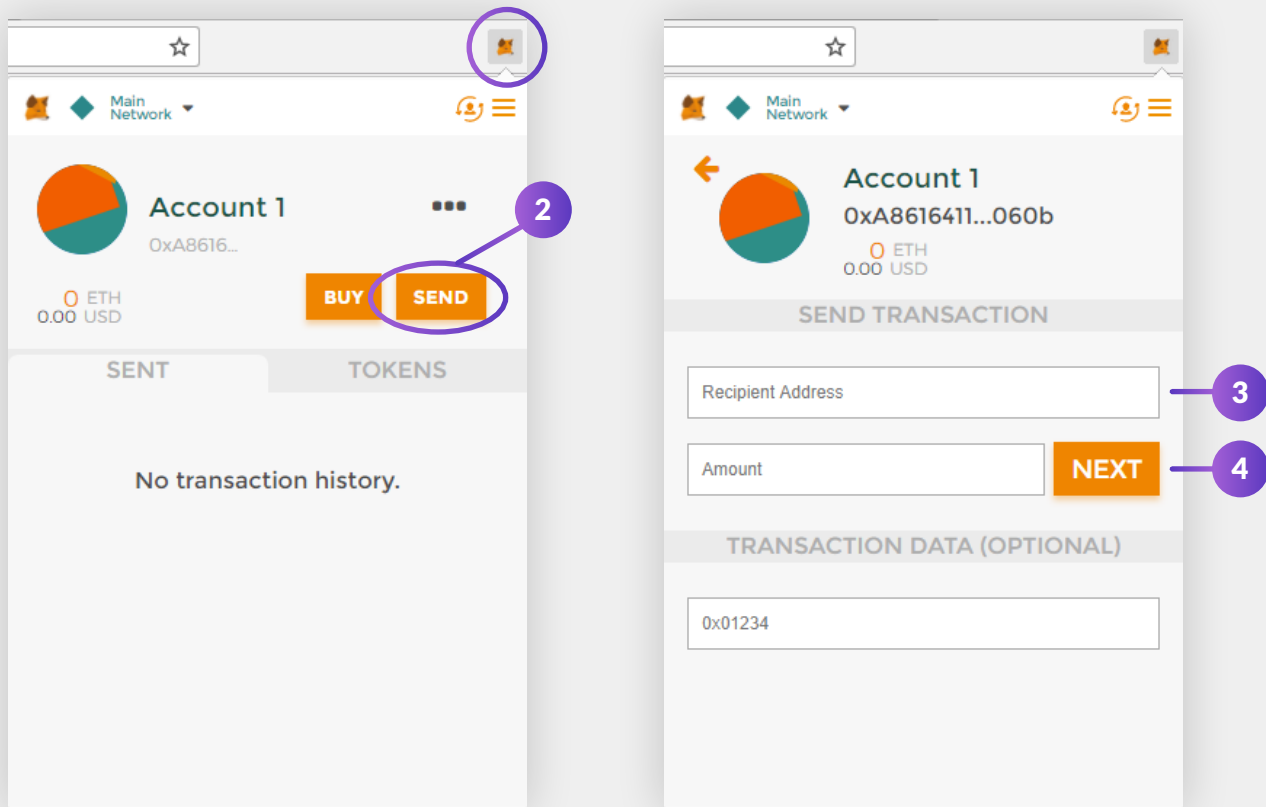

The Chrome extension page for Metamask is shown below. It includes the following information:

- MetaMask** offered by <https://metamask.io>
- ★★★★★ (271) | [Productivity](#) | 213,515 Users
- OVERVIEW | REVIEWS | SUPPORT | RELATED
- Compatible with your device
- Ethereum Browser Extension**
- MetaMask is an extension for accessing Ethereum enabled distributed applications, or "Dapps" in your normal Chrome browser.
- The extension injects the Ethereum web3 API into every website's javascript context, so that dapps can read from the blockchain.
- MetaMask also lets the user create and manage their own identities, so when a Dapp wants to perform a transaction and write to the blockchain, the user gets a secure interface to review the transaction, before approving or rejecting it.

RELATED extensions:

- Adblock Plus (★★★★★ (153421))
- Office Editing for Docs, Sheets & Slides (★★★★★ (4596))
- Ecosia - The search engine that plants trees (★★★★★ (700))
- Share to Classroom (★★★★★ (598))

2. Click on Metamask icon in your Google Chrome browser and click “Send”
3. In the “Recipient Adress” field enter adress that you will see on [Debitum Network](#) website
4. In the “Amount” field enter the amount of ETH you’d want to send and then click “Next” and then click “Submit” to confirm the transaction

That would be more than enough. One of the main advantages of this extension is its simpleness

Recommended **gas amount** – 250 000

Recommended **gas price** – 60 Gwei
